Introducing... 2005 17.1H Dark Bay Stallion
AQHA # 4695552
HOMOZYGOUS for Black Gene

DGS IndyGo

DeGraff Stables, an AQHA 4aHorse Breeder and a Congress Champion breeder, is proud to present **DGS INDYGO**, by Indian Artifacts and out of Taking Invitations by Invitation Only, as a Junior Sire in our breeding program. We have been 'looking' for this individual for over 10 years!

DGS INDYGO trained and shown by Missy Thyfault of Shelby, Ohio won the 2007 Just For Pleasure 2 YO Open Hunter Under Saddle SSA Championship and earning over $16,000 in winnings! His brief but shining show career was cut short due to an accident that required neck surgery; resulting in a permanent 'basket' inserted between vertebrae. His recovery was amazing and proof of his strength of character, however, as a result of his current limitations, we are saddened that there will not be a return to the showpen.

At 17.2 Hands, **DGS INDYGO** is homozygous for the black gene, and will not sire a red foal. He has an exceptionally gorgeous head and topline and is correct in every way. We love his low set hocks which help provide for that exceptional movement he exhibits. Couple his easy going manner and fun personality with his championship and proven bloodlines and you have a recipe for success!

In 2009, he was bred to a limited amount of mares and, in 2010, his first foal arrived. We anxiously await this next generation of our DeGraff Stables breeding program to mature.

Standing in Kentucky, **DGS INDYGO**'s offspring are eligible for the Kentucky Breeders Incentive Programs (APHA & AQHA), AQHA Incentive Fund, APHA Breeders Trust, NSBA and NSBA Breeders Championship Futurity, and Southern Belle Futurity Programs and many state futurities.

Breeding is by artificial insemenation, on the farm or fresh cooled semen transported is available. Contact us for additional breeding information and the discounts that are available.
