This FROZEN SEMEN ADDENDUM agreement ("Agreement") is entered into ("Effective Date") as identified by date and signature on Page 3 of the breeding contract, and as signed below for breeding services by and between the stallion owner ("Stallion Owner" DGS-DeGraff Stables, Inc.: CT, DGSL, DGSR, DGSTE, DGSV, FF, FTG, ITA & TA) and, for Frozen Semen terms and conditions by and between DeGraff Stables, Inc., ("DGS") the breeding facility and the mare owner ("Mare Owner") for services to the STALLION: _____. Stallion Owner and Mare Owner may sometimes be referred to herein individually as "Owner" and collectively as the "Owners". Now, therefore, in consideration of the foregoing promises, covenants and other valuable considerations contained herein, the Owners and DGS agree as follows:

Shipping Terms and Conditions. Mare owner is entitled to receive up to 2 doses of frozen semen for use in the breeding year, with allowance for one additional dose of semen, and will be reserved for use upon notification and verification of need. There is no guarantee that additional doses of semen will be available beyond these doses. If both doses have been used in the current year, a third additional dose will be reserved in case a rebreed is required in the rebreed year. Additional doses will incur an additional fee of $350 USD per dose plus shipping charges. Each dose of frozen semen is defined as a single insemination unit which includes a minimum of 600 million total sperm, which, upon proper thawing, shows at least a 30% post thaw motility. Any remaining frozen semen is the property of the Stallion Owner. DeGraff Stables, Inc. is **NOT** responsible for COSTS arising from shipments lost, damaged, or delayed in transit, or condition of cooled shipped semen upon delivery. We have no control of the shipment once it leaves our facility. There will be no refunds given for lost, delayed, or damaged shipments.

Frozen semen will only be shipped to the address of a veterinarian approved by Stallion Owner or its storage agent. The parties agree that the obligations of performance by the shipping agent and by Stallion Owner shall be met when the frozen semen shipment is tendered to parcel delivery service for shipment and risk of loss transfers to Mare Owner. A $750 USD Dry Shipper deposit is due prior to the first shipment of semen. The Dry Shipper must be returned to DeGraff Stables, Inc. at Mare Owner's expense within three (3) days of its arrival. Failure to comply with this term will result in the accrual of a $50 per day late fee and the potential forfeiture of the Dry Shipper deposit and an additional deposit will then be required for any subsequent shipments. Any loss or damage to the Dry Shipper or any of its parts or pieces will be the responsibility of the Mare Owner and any compensation for loss or damage may be taken from the deposit. The deposit may also be held until any balance due for shipping expenses and/or late fees have been paid. Mare Owner is responsible if the Dry Shipper is lost or damaged during return shipping.

Mare Owner must arrange for a liquid nitrogen storage tank and transfer the frozen semen from the Dry Shipper to the liquid nitrogen storage tank immediately upon arrival. The Mare Owner should inspect the Dry Shipper and ensure that the zip tie is intact on the latch and that the inside of the Dry Shipper is frosted when opened to transfer the semen. If the Dry Shipper is not sealed and cold upon arrival, a claim with the shipping company should be filed immediately. Thawing instructions will be included with the shipment. The frozen semen can be damaged if the straws are out of the tank for more than 8 seconds. Stallion Owner is not responsible for frozen semen that has been mishandled.

Waiver of Liability. Mare Owner agrees to diligently try to settle The Mare(s). If any of The Mare(s) do/does not settle, Mare Owner will hold Stallion Owner harmless from any loss or damage. Stallion Owner is not liable for any injury, sickness, disease, or death of Mare or her offspring arising from the exercise of the breeding privileges granted herein.

Stallion Owner retains ownership rights to any unused doses/straws of semen and reserves the right to reclaim those doses at no cost to Mare Owner. Unused doses of frozen semen may not be used in any other year or on any other uncontracted mare without advance approval in writing from Stallion Owner. Failure to adhere to this condition may result in inability to register the resulting foal, and will result in additional fees.

Certificate and Multiple Foals. Upon notification of birth of a live foal and full payment of all fees and expenses and the performance of all other obligations of Mare Owner under this Agreement, Breeder's reports will be submitted and Breeder's Certificates will be issued by Stallion Owner and mailed to Mare Owner for each of The Mares which immediately following the live birth of foal, providing that a) Mare Owner's veterinarian provides (by mail, fax, or email) completed and signed insemination certificates for each insemination complete with number of doses of semen used, and b) all accounts are fully paid to stallion owner and agent. Breeder's Certificates for additional registries (other than AQHA, APHA or ApHC) may be available at a fee of $100 each plus any costs to submit a breeding report for the organization.

The LFG will become void if the following conditions are not met: a. Mare Owner must forward a certification signed by the breeding vet that Mare did not settle and is not in foal by the end of breeding season; or, Mare Owner must notify Stallion Owner within forty-eight (48) hours of foaling or aborting that the mare did not produce a live foal; and within fourteen (14) days after Mare Owner's notice to Stallion Owner, the Mare Owner certifies to Stallion Owner that the birth was properly attended, and also provides proof of proper administration of rhinopneumonitis vaccine in the 5th ,7th , and 9th months of gestation, and also produces a statement from Mare Owner's licensed veterinarian stating details explaining the failure of the mare to produce a live foal. Unless approved by Stallion Owner in writing, the LFG shall be void and Stallion Owner will be released from liability if Mare is sold prior to foaling. Rebreed fee, semen fee and shipping fees apply to approved rebreed

WARRANTY. NO WARRANTIES WHATSOEVER, EXPRESS OR IMPLIED, SHALL ACCOMPANY A BREEDING COVERED BY THIS AGREEMENT. NO GUARANTEE OF DELIVERY OF SHIPPED FROZEN SEMEN WITHIN A CERTAIN TIME PERIOD OR GUARANTEE THAT SHIPPED FROZEN SEMEN WILL SAFELY REACH THE INSEMINATION POINT OR WILL BE THAWED WITHOUT LOSING SOME OF ITS INTEGRITY, QUALITY OR CHARACTERISTICS WILL BE GIVEN.
